Commercial R&D Technician Job Description

Posting
Job:             Commercial R&D Lab Technician
Location:        Research Triangle Park, NC
Start Date:      Immediately

bioMASON is a unique biotechnology start-up manufacturing company with a natural process that will revolutionize the building and construction industry. bioMASON employs microorganisms and chemical processes to manufacture biological cement-based masonry building materials in ambient temperatures.

bioMASON is dedicated to finding talented, multi-faceted, hard-working, and passionate people to join our innovative team. We are a young start-up seeking to make a massive impact on carbon emissions. bioMASON believes in a fast-paced, creative working environment that fosters collaboration and innovation unhindered by traditional boundaries.

The company appeals to self-directed, flexible teammates who embrace ambiguity, learn quickly, possess interpersonal skills, and seeks to test ideas through rapid iteration. An insatiable curiosity about biocement™, design sensibilities, and customer experience is required. Candidate should be comfortable working independently, without direct supervision. The work often requires more than 40 hours per week including occasional nights and weekends.

bioMASON is seeking a bioPROCESS Technician to work with our Research and Technology Division bioPROCESS Laboratory. This position will be supervised by senior laboratory personnel.

Minimum Qualifications:

- Associates or Bachelor’s degree in Chemistry, Biology, Biomanufacturing, or a related field of study.

Responsibilities, Tasks and Outcomes:

- Routine data collection and analysis using various statistical methods
- Assisting with experimental set up and incremental sampling
- Utilizing various wet chemistry techniques to prepare samples for instrumental analysis
- Maintaining a clean and proper work environment
- Thorough documentation of work performed in a report format
- Performing other duties as assigned

Required Skills and Interests:

- Coursework and experience in routine chemistry lab work
- Clear and effective communication skills
- Ability to learn quickly in fast paced environment
- Detail oriented
- Proactive, punctual, persistent
- A team player
- Ability to self-manage deadlines
- Comfortable with a fast-paced work environment
The Candidate Must Be:

- Proficient in writing and data analysis
- Highly organized and possess excellent attention to detail
- Creative, flexible, proactive, punctual, persistent
- A team player
- Self-motivated
- Comfortable with a demanding fast-paced work environment

bioMASON Employees Must Possess:

- Professionalism
- Integrity and Honesty
- Passion and Motivation
- Analytical Skills
- Intelligence and Aptitude
- Productivity

Must have reliable transportation to the RTP/ Raleigh area.
